JOSEPH LONGSHORE, M. D.

FROM A. WOODWARD, M. D., or PENN. UNIVERSITY, PHILADELPHIA.—It gives me pleasure to add my testimony to
the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs,
some of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perfect bealth, in some instances where the patient has been
considered beyond medical aid. In the treatment of Seminal Weakness, or disarrangement of the functions, produced
by self abuse or excess of vanery, I do not know his supeior in the profession. I have been acquainted with the
Author some thirty years, and deem it no more than justice
to him, as well as a kindness to the unfortunate victim of
early indiscretion, to recommend him as one, in whose profexsional skill and integrity, they may safely confide themsolves.

"This is, without exception, the most comprehensive and

Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objections ble matter, and no parent, however fastidious, e to placing it in the hands of his sons. The author has de-voted many years to the treatment of the various complaints treated of, and with too little breath to put, and 'too lit-tle presumption to impose,' be has aftered to the world at the merely monthal price of 25 cents, the fruits of some twenty years most successful practice."—Herald.

imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their harge."- People's Advocate. ter's Medical Manual, says.—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realizing the sin and fearful consequences upon themselves and posterit. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the esuse or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drinks.) though it has stain thousands upon thousands, is not a greatur scourge to the human race. Coughs, Colds, Influenca, Asthma, Revenchitis, spitting Blood, and all other Lung Complaints tending to CONSUMPTION. THE GREAT COUGH REMEDY!

READER! have you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindwill soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result.

In a short time, if you continue to neglect yourself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp daring pains. Then a dry, backing Congh will set in, and when you raise anything it will be a thick and vellowish, or white frothy matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Hectic Fever, Cold Chills, Night Sweats, Coptous Expectoration, and then Great Prostration. If you still neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and hurried you away.—

Priend! have you no cause to be alarmed? In the above Priend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses, with more or less rapidity, to a fatal termination. Of all the Thousands and Millions whom this great Destroyer has gathered to the tomb, every single case began with a Cold. If this had been attended to, all might have been well but, being neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the contract of the left of of to the substance of the Lungs, exciting there the formation of tubercles. his crisis, the disease is very difficult of cure, and oftentime sets at defiance all human means.

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of a trial;—but in its incipient or forming periods, Consumption is as curable as any other disease, and 'Dr. Rogers' Syrup of Liverworth, Tar, and Canchalagua,' if taken at this time, will cure it to the contract of the contr

pound and tease vigor to a good old age! MOTHERS! Have you delicata, weakly children, who are always taking cold, and subject to Croup? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We beseeth you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest not until the cough is entirely subdued. We conscientiously aver, after the nost extended experience, that if this advice were followed no child need ever DIE OF CROUP,

DIE OF CROUP, for the cold would be cured, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, heed well these remarks, that she may not hereafter, when mourning over the early blight of some cherished blossom, have occasion bitterly to reproach herself for her criminal neglect. It is an old adage, that "to be forwarned, is to be forearmed." Parents! so let it be in your case.

PRILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR. KINKELIN. The oldest, surcet and best hand to care all forms of secret diseases of the skin, and solitary liabits of youth, is DR. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which boys teach each other at the feadomy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this permicious practice are aware of the consequences, until they find the nervous system is shattered, feel strange and unaccountable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study, his acep is tardy and weak, he is dell and irresolute, the countenance is downcast, the DRILADELPHIA MEDICAL HOUSE,—Established 15 he is dull and irresolute, the countenance is downcast, the even without natural lustre, shamefacedness is apparent.—
These are symptoms which should awaken the attention of those similarly afflicted.

If the victim be conscious of the cause of his decay, and

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prestration. If he emancipate himself before the practice has done its worst, and enter matrimony, his matriage is unfruitful, and his senses tell him that this is caused by his early follies.

Too many think they will hog the secret to their own hearts, and cure themselves. Alas' how often is this a futal delusion, and how many a promising youth, who might have been an ornament to society, has fuded from the earth!

Young Men!—Let no false modesty deter you from Young Men I - Let no false modesty deter you from taking your case known to one who, from education and re-

maxing your case known to one who from education and respectability, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously confide his honor as a gentleman, and in whose bosom will be for ever locked the secret of the patient.

DR. MORSE'S I NVIGORATING CORDIAL, a Phenomenon in Medicine. DR. MORSE'S INVIGORATING ELITIR OR CORDIAL

Dr. MORRE'S INVIGORATING ELIKIR OR CORDIAL.

For consuries, Medical science has been ransacting the vegetable and mineral kingdense, in snarch of something that should restore the lost or does in generalises of the nervous and muscular systems, without the drawback of subsequent prostration, which all stimulants, tonics, and narcottes had heretofore entailed. That something has been found. It is a vegetable production, brought from the startle descris of Arab a the Stony, by the calchrated Professor M. Morse, well known as a distinguished member of the leading scientific societies of the Gld World, and equally distinguished as a physician, a chemist, and a tractler. The juices of this borb, concentrated and combined with other expetiable medicinal extracts, are now producing results heretofore unheard of, in this or any other country. At first the properties attributed to Prot. MORSE'S INVIGURATING SLIXIR OR COMBIAL were decreed fabations. The public often decrived could not believe the simple and subdime testas announced by the discoverer. But facts, undeniable facts attested by witnesses of the highest chas and character, are now insumphing over all doubse. IN REDULITY IS OVER. THEOWN, by a mass of testimony which is perfectly irresistable.

The BEDIER remodies, in all cases, the deplorable evils arising from a misuse or nouse of the various organs which make up the wooderful seables.

The Enxis remedies, in all cases, the deployable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man. It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind, necessary to the re-production of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of all the natural apprities, as well as the higher meetal attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl, the ailing wife, the lasticm, ermovated youth, the over work man of business, the richim of astrons depression, the lindividual suffering from general debility, or from the weakness of a single organ, will all find immediate and permanent relief from the use of this incomparable removator.—To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard saxious that terrible malady. There are many, perhaps, who have so trifled with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. Rebuild the Broken Constitution.

The decangements of the system, leading to nervous diseases, and the forms of nervous diseases, and the forms of nervous disease fiself, are so numerous that it would require a column to enumerate the maladies for which this preparation is a specific. A few, however, may be summerated vizi neuralgia, tie delereaux, headache, incipient paralysis, hysteria, palpitation of the leart, spinal affections, muscular debility, tremors, flatolence, a pricking sunsation in the flesh, numbross, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompation, weakness of the procreative organs, sexual incompation. terrifying dreams, inability to remain in one place or post-tion, weakness of the procreative organs, sexual incompe-tency, melancholy, monominia, fluor albus, sinking at the stomach, founds irregularities, a checuic tendency to mis-carriage, omaciallou, and all complaints growing out of a free indulgence of the passions, and all barrenness that does not proceed from organic causes beyond the reach of modicine.

If Bear in mind that all muladles, wherever they begin, finish with the nervous system, and that the paratization of the nerves of motion and sensation is physical death. Rear in mind also, that for evary kind of nervous disease the Rixir Cordial is the only reliable preparation known.

Cure of Nervous Diseases. No language can convey an adequate idea of the immediale and almost mirroulous change which it occasions in the diseased, debilitated and shattered nervous gistem, whether broken down by excess, weak by nature, or impaired by sickness, the unstring and relayed organization is above traced re-vivided and built up. The mental and physical symtomic of nervous disease vanish together under its influence. Nor is the effect temp-rary; or the contrary, the relief is permanent, for the cordial properties of the medicine reach the constitutionitself, and realors it to its normal condition.—Well may the preparation be called the

Its force is never expanded, as it the case with optim, alcoholic preparations, and all other excitants. The effect of these is brief, and it may well be said of him who takes shem, "The last state of that man is worse than the first." But the Elixir is an exhiberant without a single drawback—safe in its operation, perpetual in its finappy influence upon the nerves, the wind, and the entire organization; it will also remove depressions, excitement, a tendency to blush, sheeplessness, dislike of society, incapacity for study or business.
